Token

BuffedShiba is a community driven token that strives to be extremely fair to all investors especially small ones. That's why 100% of the total supply was used as liquidity.

Deflationary: 1% of each transaction gets burned

Auto-Liquidity: 1% of each transaction gets added to liquidity. The added LP-Token are burned.

Anti-Whale: The maximal balance of each wallet is 0.5% of the total supply.

Max Fees: The maximal combined fee amount is 10%.

Locked-LP: The LP-Token are locked at Unicrypt.
